

FAITHS 4 CLIMATE JUSTICE

OCTOBER 15-18

Destroying the planet is against our religion! Two weeks before the UN's global climate negotiations in Glasgow, faith communities around the world will rise up to urge our political and financial leaders to take action. Using an international climate activist platform created by GreenFaith, the Interfaith Coalition for Earth Justice (ICEJ) will sponsor two projects in San Diego:

OCTOBER 15-17

Faith communities will call for climate justice using the riches of their own traditions and resources ([here](#)) provided by GreenFaith and ICEJ.

**MONDAY,
OCTOBER 18
1-2:15 PM
COUNTY ADMINISTRATION
BUILDING**

Faiths 4 Climate Justice Rally:
Faith communities and their supporters will come together at the County Administration Building, 1600 Pacific Highway, to present 5 key demands on climate and equity. We ask that these demands be prioritized in the County's Regional Decarbonization Framework. Our Rally will also feature music, street theatre, reflections and prayers from different faith traditions. SanDiego350 and the CA Poor People's Campaign co-sponsor.

DEMANDS:

- Invest in green infrastructure for environmentally impacted communities
- Transition rapidly to 100% renewable energy
- Focus on the creation of local green jobs for underserved communities and a just transition for fossil fuel workers
- Prioritize marginalized communities when designing sustainable transit solutions
- Reach zero carbon for SD County by 2030

Please join us to witness our care for the earth and for the poor. We will make our voices heard!
